

### **Bamboo Wine (Vinegar) Charcoal Foot Patch**

The foot patch discharges internal moisture and toxins from the body through the acupuncture meridian points system. These patches have been known to relieve tension and fatigue, promote sleeping, can brighten and soften the skin while promoting an increase in overall health. The magical amazing effect of this foot patch can be both felt and seen. It has become one of the most popular and well-known detox /health care products throughout South Korea, Japan and China as well as Hong Kong, Singapore, America and European countries.

The main ingredient of the foot patch is a natural bamboo wine or vinegar quintessence, which has super function of penetration and dispelling toxins. Its effects last for 8 hours after use. By using this foot patch toxins and wastes which are stored in the intestinal canal and circulatory system can be expelled quickly and effortlessly. It has function of wiping off splash, eliminating constipation, relieving fatigue, promoting sleep, relieving ankylosis and pressure of neck, shoulder, waist, back and extremities and brightening and purifying skin.

Just attach this detox foot patch to your feet before sleeping, then it will help you to dispel toxins easily. It is reported in professional magazines that by using the detox foot patch for hours, the body wastes and toxins begin to be eliminated. The next morning you will find large amounts of black and sticky waste oil, liquid, and toxins which have been dispelled by the detox foot patch. Sometimes the foot patch bag will turn yellowish, brown, dark brown or black, which is because of the individual difference.
